

Approximately 325 km east of St. John's, Newfoundland and Labrador lies the Hibernia oilfield. Hibernia Management and Development Company Ltd. (HMDC) has recovered over a billion barrels of oil from the site through a highly automated state-of-the-art platform. At Hibernia, we are setting a standard for offshore excellence. We're looking for people who have the enthusiasm for that and wish to share in the challenges of Canada's offshore oil industry.

Hibernia Management and Development Company Ltd. (HMDC) is recruiting an Operations Technician for employment on the Hibernia platform. Reporting to the Production Supervisor, the successful applicant will assist with safe and efficient operations on the Hibernia platform.

### **Operations Technician**

#### **Role:**

- Optimizing production volumes in a safe and effective manner
- Coordinating start-up, operation, and shut-down of offshore process and utility plants
- Preparing, executing and monitoring the control of work processes
- Maintaining comprehensive and accurate logs and reporting records
- Collaborating to address key technical areas and priorities
- Identifying improvement opportunities and providing technical solutions
- Adhering to industry codes applicable to the operations field in an offshore environment
- Participating in Hibernia platform safety programs and compliance with Operational Integrity Management System (OIMS)

#### **Qualifications:**

- Journeyperson inter-provincial trade certificate or technologist qualification with equivalent experience
- 5-10 years of oil and gas industry experience (preferably offshore)
- Broad working knowledge of well equipment, separation, gas compression and power generation systems
- Broad working knowledge of the Distributed Control System (DCS), Emergency Control System (ECS), and Fire & Gas System (FGS)
- Familiarity in using Windows-based applications including SAP
- Effective written and oral communications skills
- Working knowledge of safety practices common to industry

#### **Other considerations:**

- This is an offshore-based position on the Hibernia platform on a 21 days on/21 days off rotation. The successful candidate will be required to obtain all necessary qualifications to travel to an offshore production facility in Newfoundland and Labrador
- In accordance with the Canada-Newfoundland Atlantic Accord Implementation Act, first consideration for employment will be given to qualified persons who meet the residency requirement of the Province of Newfoundland and Labrador set out in the Elections Act, 1991, S.N.L. 1992 c. E-3.1.
- Applicants must be permanently eligible to work in Canada. Proof of eligibility must be in the form of a Canadian birth certificate, Canadian passport, Canadian certificate of permanent residence, or Canadian citizenship certificate.
- For applicants selected to be interviewed, pre-employment background screening will be required.
- We thank all those who apply; however, only candidates selected for interviews will be contacted.

If you have technical expertise, leadership and experience, commitment to safety, good communication skills, and a strong desire to contribute in a demanding career, then please contact us.

Closing date: June 8, 2022
