1.0 INTRODUCTION

The Hibernia field is located on the northeastern Grand Banks, approximately 315 km south-southeast of St. John's, Newfoundland and Labrador. The field was discovered in 1979 by Chevron et al. when they drilled the Hibernia P-15 well.

On September 15, 1985, Mobil, on behalf of the Hibernia co-venturers, filed the Hibernia Benefits Plan and Hibernia Development Plan with the Federal and Provincial governments. The Hibernia Benefits Plan was approved by the C-NLOPB in June 1986. The Plan covers all phases of the Hibernia project from project development to abandonment. An Amendment was submitted in February 2010 and subsequently approved in September 2010 to address the Hibernia Southern Extension. This was the first amendment to Hibernia's Benefits Plan since the original was approved by the Board in Decision 86.01.

Several key principles of the Plan include:

- The provision for a local office where appropriate levels of decision-making are to take place;
- The requirement for full, fair and timely opportunities for Newfoundland and Canadian industry to participate in the supply of goods and services on a competitive basis;
- Utilizing, to the extent practical and cost effective, the principle of first consideration to Newfoundlanders and Labradorians and Canadians in procurement, contracting and employment policies for the project including the construction, development and operating phases;
- Engineering and construction work that can be performed in Newfoundland and Labrador shall be performed in Newfoundland and Labrador;
- Establishment of a Gender Equity and Diversity Program; and
- Expenditures shall be made for research and development to be carried out in the province and for education and training to be provided in the province.

Hibernia's commitments are monitored by the Canada-Newfoundland and Labrador Offshore Petroleum Board on a quarterly and annual basis.

2.0 EXPENDITURES & CANADIAN-NL CONTENT ESTIMATES

The table below details actual expenditures content estimates for the quarter.

Q1-2023 Canada-NL Content Estimates				
	NL	OC	NC	Total
Percentage (%)	51%	23%	26%	100%

* NL = Newfoundland & Labrador, OC = Other Canadian, NC = Non-Canadian

A combination of updated content percentages from vendors, an adjustment to affiliate content percentages for services and staffing, and increased spend with materials contractors with higher NC content, resulted in a decrease in NL content.

3.0 EMPLOYMENT

The total number of full-time equivalents employed on Hibernia during Q2-2023 was 1,277 of which 94% were Newfoundland & Labrador residents, 4% were other Canadian and 2% were non-Canadian. Please note the following interpretation notes regarding Hibernia employment information:

- The figures in this report may be subject to rounding differences
- Full time equivalent (FTE) represents the total hours worked divided by the average hours worked for a full time position per quarter
- Previous reports listed 'Number Filled' and included some individuals who worked on the project less than full time. The numbers in this report reflect FTE as defined in the bullet above.
